

**Appendix C**

**MAT Tenant and Voucher System Error Messages and Codes..... C-1**

**Part 1: MAT Transmission & Tenant Error Messages and Codes.....C-2**

**Part 2: MAT Voucher Error Messages and Codes.....C-6**

## **Appendix C: MAT Tenant and Voucher System Error Messages and Codes**

Part 1 of this chapter contains the MAT Transmission & Tenant System error messages and codes. The transmission level errors apply to both Tenant and Voucher submissions.

Part 2 of this chapter contains the MAT Voucher System transaction level error messages and codes.

## Part 1: MAT Transmission & Tenant Error Messages and Codes

Code	Error Message
1	<p><b>“TRANSMISSION REJECTED: INVALID MATHR DATE/TIME”</b></p> <p>Condition: This message is generated only for an invalid date/time in the MATHR. Processing resumes at the next Sprint Header</p>
2	<p><b>“TRANSMISSION REJECTED: BAD SPRINT MAILBOX”</b></p> <p>Condition: This message indicates that the Sprint header is misaligned, causing the entire batch to shift. Processing resumes at the next Sprint header.</p>
3	<p><b>“MISSING BASIC RECORD, SECTION 2, FOR MAT 10”</b></p> <p>Condition: There must always be a basic record, Section 2, following a MAT 10 Section 1 record. All sections for this 50059 are rejected.</p>
4	<p><b>“MAT10 REJECTED: DUPLICATE MEMBER NUMBER RECORD IN FAMILY RECORDS”</b></p> <p>Condition: The value in Section 3, FIELD#3 was not unique for each member in this family. All sections for this 50059 are rejected.</p>
5	<p><b>“MAT10 REJECTED: NO FAMILY MEMBER RECORD FOR INCOME RECORD”</b></p> <p>Condition: A match condition did not occur between values in the Section 3, FIELD 3, Member Number and Section 4, FIELD 3, Member Number. All sections for this MAT10 are rejected.</p>
6	<p><b>“MAT10 REJECTED: MAT10 SECTION 1 HEADER RECORD NOT FOUND”</b></p> <p>Condition: A MAT10 Section 2, 3, 4, 5, or 6 record was encountered and no MAT10 Section 1 record was found for this certification. All sections for this MAT10 are rejected.</p>
7	<p><b>“MAT10 REJECTED: MAT10 SECTION RECORDS ARE OUT OF SEQUENCE”</b></p> <p>Condition: MAT10 Sections were not in the following order 1, 2, 3, 4, 5, 6. All sections for this MAT10 are rejected.</p>
8	<p><b>“TRANSMISSION REJECTED: MATHR NOT FIRST RECORD OR MISSING”</b></p> <p>Condition: The MATHR must be the first record in the file after the Sprint Header. The transmission will be rejected. Processing resumes at the next Sprint Header.</p>
9	<p><b>“TRANSACTION RELEASE/VERSION NUMBER IS INVALID”</b></p> <p>Condition: The MAT transaction contains a Release/Version Number that TRACS does not recognize as current. The complete transaction is rejected.</p>
C	<p><b>“MAT RECORD NOT IMPLEMENTED”</b></p> <p>Condition: The MAT Record Format, is documented “FOR FUTURE USE”. Should any of these record types be encountered in a batch, this message will be generated, and the record will be skipped.</p>

## Part 1: MAT Transmission & Tenant Error Messages and Codes

Code	Error Message
<b>D</b>	<b>“FIELD IS NOT A VALID DATE/TIME”</b> Condition: Self-explanatory
<b>E</b>	<b>“TRANSMISSION REJECTED: A COUNTER IN MATHR IS INCORRECT”</b> Condition: The number of MATxx records or the number of Total Records Sent in the MATHR does not equal the MAT calculated count. Processing resumes at the next Sprint Header.
<b>F</b>	<b>“TRANSMISSION REJECTED: DUPLICATE DATE/TIME STAMP AND MAILBOX ID”</b> Condition: This message would indicate that the same transmission was sent twice. Processing resumes with the next Sprint Header.
<b>G</b>	<b>“MAT10 REJECTED: MISSING HEAD OF HOUSEHOLD IN FAMILY RECORDS”</b> Condition: One family member must have an “H” coded in Section 3 FIELD #7, Relationship Code, and “01” coded in Section 3 Field #3, Member Number. All sections for this MAT10 are rejected.
<b>H</b>	<b>“MAT10 REJECTED: THIS MAT10 IS REJECTED AS A DUPLICATE”</b> Condition: This message indicates a duplicate MAT10 record has been found. All sections for the 50059 are rejected.
<b>J</b>	<b>“TRANSMISSION REJECTED: NO MATND RECORD FOUND”</b> Condition: The MATND record could not be found. The whole batch will be rejected.
<b>K</b>	<b>“TRANSMISSION REJECTED: INVALID MAILBOX ID”</b> Condition: This message is generated when the system detects an invalid mailbox ID within the MATHR.
<b>L</b>	<b>“MAT10 REJECTED: RELATIONSHIP CODE AND MEMBER NUMBER ARE INCOMPATIBLE”</b> Condition: In the MAT10 Section 3 Family Record, when specifying head of household, both the relationship code and the member number must indicate values for head of household. The relationship code, FIELD #7, must equal “H”, and the member number, FIELD #3, must equal “01”. All sections for this MAT10 are rejected.
<b>M</b>	<b>“MAT10 REJECTED: MULTIPLE HEAD OF HOUSEHOLD FAMILY RECORDS”</b> Condition: A family had more than one person specified as head of household. All sections for this MAT10 are rejected.
<b>N</b>	<b>“FIELD IS NOT NUMERIC”</b> Condition: Self-explanatory

## Part 1: MAT Transmission & Tenant Error Messages and Codes

Code	Error Message
<b>O</b>	<p><b>“MAT10 REJECTED: A COUNTER IN MAT10 SECTION 1 IS INCORRECT”</b></p> <p>Condition: The number of Basic, Family, Income, Asset, or Worksheet records in the MAT10 SECTION 1 header does not equal the MAT calculated count. All sections for this MAT10 are rejected.</p>
<b>P</b>	<p><b>“TRANSMISSION REJECTED: DUPLICATE DATE/TIME/MAILBOX ID FROM PREVIOUS DAY”</b></p> <p>Condition: This message would indicate that the same transmission was sent previously. The entire batch is rejected. No scan will be performed. The field contents in error (Field #13 MATER RECORD) displays date, time, and mailbox of previous transmission.</p>
<b>Q</b>	<p><b>“TRANSMISSION REJECTED: THE SEQUENTIAL RECORD NUMBER IS OUT OF SEQUENCE”</b></p> <p>Condition: Each record contains a sequential number named ‘Record Number’. If this number is out of sequence, this message will be generated.</p>
<b>R</b>	<p><b>“TRANSMISSION REJECTED: INVALID MAT OR SEC RECORD TYPE”</b></p> <p>Condition: Each record contains a record identifier, such as MAT10, or a Section Indicator such as 2. This message is generated when either <i>record identifier</i> or <i>section indicator</i> is invalid.</p>
<b>S</b>	<p><b>“A MANDATORY FIELD MUST NOT BE SPACE FILLED”</b></p> <p>Condition: Self-explanatory</p>
<b>T</b>	<p><b>“RELEASE/VERSION NUMBER IN MATHR OR MATTR IS INVALID”</b></p> <p>Condition: The Release/Version Number in the MATHR or MATTR is not currently accepted by TRACS. The transmission is rejected.</p>
<b>V</b>	<p><b>“A MANDATORY FIELD DOES NOT CONTAIN THE SPECIFIED VALUE”</b></p> <p>Condition: Some mandatory fields, such as Record Identifier or Release Version, are valued. If the field does not contain the specified value, for example “MAT10”, then this message is generated.</p>
<b>W</b>	<p><b>“TRANSMISSION REJECTED: ONLY ONE MAT30 ALLOWED PER MATHR BATCH”</b></p> <p>Condition: There can be only one MAT30 within a MATHR through MATND batch, but there can be multiple MATHR through MATND batches within a single Sprint transmission.</p>
<b>X</b>	<p><b>“FIELD IS NOT ALPHANUMERIC”</b></p> <p>Condition: Self-explanatory</p>

## Part 1: MAT Transmission & Tenant Error Messages and Codes

Code	Error Message
Y	<b>“TRANSMISSION REJECTED: MIXED TENANT AND VOUCHER RECORDS IN MATHR BATCH”</b> Condition: MAT30 and MAT31 are Voucher Record Identifiers. The MAT 30 and/or MAT31 Record Identifiers cannot be mixed with any Tenant Records, such as MAT10, within a MATHR through MATND batch.
Z	<b>“A MANDATORY FIELD MUST NOT BE ZERO FILLED”</b> Condition: Self-explanatory

## Part 2: MAT Voucher Error Messages and Codes

Code	Error Message
V007	<b>“MAT30 REJECTED: MAT30 SECTION RECORDS ARE OUT OF SEQUENCE”</b> Condition: MAT30 Sections were not in the following order: 1, 2, 5, 6. All sections for this MAT30 are rejected.
V00A	<b>“FIELD IS NOT ALPHA”</b> Condition: Self-explanatory.
V00D	<b>“FIELD IS NOT A VALID DATE/TIME”</b> Condition: Self-explanatory.
V00N	<b>“FIELD IS NOT NUMERIC”</b> Condition: Self-explanatory.
V00O	<b>“MAT30 REJECTED: A COUNTER IN MAT30 SECTION 1 IS INCORRECT”</b> Condition: The count of Summary, Approved Special Claims, and Miscellaneous Accounting records in the MAT30 Section 1 count fields does not equal the MAT calculated count. All sections for this MAT30 are rejected.
V00S	<b>“A MANDATORY FIELD MUST NOT BE SPACE FILLED”</b> Condition: Self-explanatory.
V00V	<b>“A MANDATORY FIELD DOES NOT CONTAIN THE SPECIFIED VALUE”</b> Condition: Some mandatory fields, such as Record Identifier or Release Version are valued. If the field does not contain the specified value, for example “MAT30”, then this message is generated and the record rejected.
V00X	<b>“FIELD IS NOT ALPHANUMERIC”</b> Condition: Self-explanatory.
V00Z	<b>“MANDATORY FIELD MUST NOT BE ZERO FILLED”</b> Condition: Self-explanatory. A mandatory field with the notation, “Zero is a valid entry”, will not receive this message if zero filled.
